## Part A. PERSONAL INFORMATION

First Name	Domingo		
Family Name	Morales Palma		

### A.1. Current position

Job Title	Profesor Titular de Universidad		
Starting date	2022		
Institution	Universidad de Sevilla		
Department / Centre	Ingeniería Mecánica y Fabricación / Escuela Técnica Superior de Ingeniería		
Country	Spain		
Keywords			

### A.2. Previous positions (Research Career breaks included)

Period	Job Title / Name of Employer / Country
2012 - 2022	Profesor Contratado Doctor / Universidad de Sevilla
2011 - 2012	Profesor Ayudante Doctor / Universidad de Sevilla
2006 - 2011	Ayudante / Universidad de Sevilla
2005 - 2006	Prof.Univ.Asimilado Colaborador Interino / Universidad de Sevilla

### A.3. Education

Degree/Master/PhD	University / Country	Year
Fundamentos para el diseño en ingeniería mecánica	Universidad de Sevilla	2011
Ingeniero Industrial	Universidad de Sevilla	2003

## Part B. CV SUMMARY

Research activity focuses on two lines: sheet metal forming, and ontology-based design and methodologies applied to manufacturing. The first line concentrates most of its scientific production, mainly in the assessment of formability and failure in sheet metal forming processes with high stress/strain gradients, such as incremental sheet forming, which has been analysed both experimentally and numerically/analytically. This line has received continuous funding in the last 10 years through competitive projects of the National Research funding framework (6 projects, 1 as PI) and the Andalusian Research Funding Call (2 projects, 1 as PI) as well as 11 research contracts "arts. 68/83 LOU" (2 as PI). In the second research line, he is an active member of a multidisciplinary research group formed by doctors from the "Dpt. Industrial Organization" and the "Dpt. Computer Languages and Systems" of the US and of the companies Airbus DS and Mecanizados y Montajes Aeronáuticos S.A. (MyM).

As a researcher, he regularly contributes to international prestigious media. He has published more than 40 papers in international journals, 18 of them in journals indexed in the JCR, a book chapter in the prestigious Woodhead/Elsevier publishing series and more than 30 contributions in international conferences. He accumulates 396 citations (57.2 cites/year in the last 5 years) and has an h-index of 11 (source: Scopus). He is a co-author of a patent. He has carried out 2 postdoctoral research stays (6 months) in research centers of recognized international prestige.

He has as recognized merits: 2 six-year research periods ("sexenios de investigación" up to 2017), 1 six-year technology period ("sexenio de transferencia" up to 2017) and 4 regional periods ("tramos autonómicos"). He has participated as a member of the scientific committee of two international conferences in various editions (MESIC 2015, 2017, 2019, 2021 and PLM 2017, 2018) and as a reviewer of papers in several journals indexed in the JCR. He has supervised a doctoral thesis with an international mention, on incremental sheet metal forming.

He has more than 16 years of university teaching experience with active participation in 1st, 2nd and 3rd cycle and in several master's degrees with a mention of quality and/or excellence. He has been participating in studies of Aerospace and Industrial Engineering. Since the 2011/12 academic year, he has been the coordinator of various core subjects for Bachelor's and Master's degrees. He has supervised more than 30 final degree projects and tutored several student internships in companies. He has supervised 3 teaching innovation projects and participated as a speaker and co-author in various papers presented at teaching conferences. The main lines of the final degree project management focus on the analysis and simulation of sheet metal forming processes and practical CAM applications such as CNC machining with 3DExperience/CATIA and process planning of aeronautical assembly with 3DExperience/DELMIA.

Regarding to university management, during the academic years 2016/17 and 2017/18 he was a member of the Quality Assurance Commission of the Center for the Aerospace Engineering Degree and the University Master's Degree in Aeronautical Engineering.
