

**Part A. PERSONAL INFORMATION**

CV date	28-03-2023
----------------	------------

First name	María Teresa
Family name	Pineda

(*) Mandatory

A.1. Current position

Position	Full Professor		
Initial date	23-12-2010		
Institution	University of Cordoba		
Department/Center	Physical Chemistry	Faculty of Science	
Country	Spain	Teleph. number	
Key words	Physical Chemistry. Interfacial Electrochemistry. Nanotechnology. Surface Functionalization. Metallic Electrodes. Single Crystals. Self-assembled monolayers. Macromolecules/Polymers. Function. Nanoparticles.Bionanoconjugates.Supercapacitors		

A.3. Education

PhD, Licensed, Graduate	University/Country	Year
Chemistry	University of Cordoba	1987
PhD in Physical Chemistry	University of Cordoba	1991

Part B. CV SUMMARY (max. 5000 characters, including spaces)

I license in Chemistry (1987) and defend my PhD thesis (1991) at the University of Cordoba (UCO). The PhD contract was funded by Junta de Andalucía (JA). I got extraordinary prize of License (1988) and Doctorate (1991). I spent more than 2 years (November 1991 to December 1993) at the University of Tennessee at Knoxville (UTK) (USA) as a Research associate under a contract of the UTK (November 1991 to august 1992) and a postdoctoral fellowship from the Spanish government (September 1992 to December 1993). During this time, I was nominated as adjunct assistant professor at UTK. I came back to UCO with a Re-Entry contract of Spanish Government (Jan 94 – Apr 94) that I finish when I got an assistant professor position at the Dep. Physical Chemistry (UCO). At this time, I have the opportunity to join the research group where I made my PhD and started a new research line connecting the acquired experience in Biophysics at UTK with the research line of the FQM111 group where I have the possibility to direct several licensed works, advanced studies diplomas and Doctoral Thesis. Moreover, I participated as research member in several projects funded by JA and Spanish government. After 2007, I lead as principal investigator the funded projects of the group. In this period, we have gotten funding for basic research dealing with the synthesis and characterization of gold nanoparticles and its interactions with proteins. Moreover, we got a research project of 4 years from JA in collaboration with a jewelry company studying problems related to the electrodeposition of metals and alloys. My relationship with the jewelry sector in Cordoba served to create the University-Enterprise Catedra de Joyería de Córdoba – Caja Rural del Sur that I direct from 2018 and that is completely funded by the Caja Rural del Sur Foundation. We are working in different areas such as formation, research and divulgation. As director, I have participated in many conferences and discussion working days with the different companies trying the modernization of this sector in the Cordoba province. We have international research collaborations with the University of Lincoln (Dr. Gonzalez), Univ. of Padova (Dr. Abdirisak Ahmed Isse) and Univ. Federico II Naples (Dra. Angela Lombardi and Flavia Nastri).

My scientific carrier has given place to more than 70 indexed articles (most of them in Q1) and more than 100 meeting communications. I have been invited to impart plenary conferences at several research meetings.

I have directed 7 PhD thesis and now I am engaged in the direction of 3. I am now responsible for 2 FPU contract (Miriam Chávez, FPU17/03873 and Angela Fernández, FPU20/02616).

I act as referee of more than 40 different journals and in funding agencies, national (AEI, ANECA), international (Fondecyt, Chile; Conicet, Argentina; Agence Nationale de la Recherche, France, HOMING, Poland; National Center of Sci. and Tech., Kazakhstan). I have been member of the evaluation committee for the Ayudas para la Recalificación del Sistema Universitario de la Universidad de Burgos.

From 2006 – 2013 and 2013 - 2020 I have been secretary and department head, respectively, of the department of Physical Chemistry and Applied Thermodynamic at UCO. From 2016 to 2020 I have been member of the University government conseil as representative of the department heads in UCO working in the related committees.

I coordinate the programs of Máster and Doctorate of Electroquímica. Ciencia y Tecnología at UCO (2016 -).

I have worked as committee member in more than 30 opposition for associated and full professor in many Spanish universities.

C.2. Research projects and grants

Reference: 1265074-2B

Title: Materiales híbridos basados en nanopartículas de oro y polímeros brush para aplicaciones en Biomedicina.

Funding: UCO-FEDER-2018

Principal Investigator: Dra. M^a Teresa Pineda Rodríguez

Entity: Universidad de Córdoba

Start: 2020 **End:** 2021

Amount of funding: 34.271 EUR

Reference: CTQ2014-60227-R

Title: Design and Characterization of Nanobioconjugates. Novel Elements for the Construction of Biological Interfaces aimed to the Health Improvement and Public Welfare.

Funding: Ministerio de Economía y Competitividad BOE-2015-98476

Principal Investigator: Dra. M^a Teresa Pineda Rodríguez

Entity: Universidad de Córdoba

Start: 2014 **End:** 2018 **Amount of funding:** 81.000 EUR

Reference: P10 FQM-6408

Title: Characterization of nanostructured materials formed on gold alloys with jewelry applications.

Funding: Consejería de Economía, Innovación, Ciencia y Empleo. 2010

Principal Investigator: Dra. M^a Teresa Pineda Rodríguez

Entity: Universidad de Córdoba/ Empresa MAJ Joyeros S.L

Start: 2011 **End:** 2014 **Amount of funding:** 153.400 EUR

Reference: CTQ2010-16137

Title: Design 2D and 3D molecular platforms at the nanoscale. Fabrication of surface patterns on gold substrates.

Funding: Ministerio de Ciencia e Innovación. BOE-A-2009-21233

Principal Investigator: Dra. M^a Teresa Pineda Rodríguez

Entity: Universidad de Córdoba

Start: 2010 **End:** 2013 **Amount of funding:** 59.000 EUR

Reference: CTQ2015-71955-REDT / RED2018-102412-T

Title: Electrochemical sensors and biosensors network

Principal Investigator: José Manuel Pingarrón Carrazon / Encarnación Lorenzo Abad
